

# Because Every Child Deserves a Healthier Tomorrow

**UnityPoint Health - Cedar Rapids** is where young patients get the special care they need, from a new life entering the world to an abused child or a teen struggling with depression. We're here for families, too, with unique services like Eastern Iowa's only **Ronald McDonald Family Room**.

We are the  
**only**  
area provider of  
**17**  
vital children's  
services

When Madelyn, Reid, and Adriana Leuchs arrived in the world 10 weeks early, **UnityPoint Health - Cedar Rapids** was ready for them. Their mom, Emma, says their care was carefully coordinated, from her **UnityPoint Clinic** specialist to the team at **St. Luke's Neonatal Intensive Care Unit (NICU)**.

*"Caring for very low birthweight infants and multiples requires the experience, equipment, and expertise only St. Luke's provides in the Cedar Rapids area," explains Dr. Andrew Nordine, St. Luke's NICU medical director. "Our team works hard to be worthy of the trust this community puts in us."*

Four-year-old “Max” couldn’t enjoy mealtime because of pain from a mouth full of decayed teeth. His family simply couldn’t afford dental care. But thanks to the **Dr. Rhys B. Jones Dental Health Center**, “Max” got the treatment he needs to be happy and smiling again.

## Children’s Services Annual Visits/Admissions

# BETTER Because of You

St. Luke’s Foundation depends on the generosity of people like you to support **UnityPoint Health - Cedar Rapids** in giving children and families the health care we’d like our loved ones to receive. Your contribution can put a smile on a child’s face, help a premature baby draw her first breath, or give a neglected child hope for the future.

**Medicaid reimburses only  
of the cost to provide care  
for many young patients**
