

Client Participation Rate Chart Using Net Annual Income										
	14580	19720	24860	30000	35140	40280	45420	50560	55700	60840
Percent of Services to be Paid by Client	Net Annual Income by Household Size									
	Looking in the column that corresponds to the client's household size, find the smallest number that is greater than or equal annual income. Follow the row across to the left to find the % of service costs to be charged to the client.
