

Fire Safety House

Severe Weather Education - Terms and Conditions

Please be advised of the following terms and conditions for using the Blank Children's Hospital Fire Safety House for Severe Weather Education.

1. Please remember that your reservation form is a request, and all use depends upon the availability of the Fire Safety House and its staff.
2. Fire Safety House staff will bring the House to your location, set it up for your education requested and train your volunteers.
3. The Fire Safety House is an educational tool and must be adequately staffed. We recommend a **minimum of 3-5 volunteers per 4-hour shift for Severe Weather Training**. It is the responsibility of the hosting fire department or community group to provide volunteers.
4. Please allow adequate room for the Fire Safety House trailer (38 ft. long; 8 ft. wide; 12 ft. high) plus the tow vehicle.
5. If providing Severe Weather Training to young children (Pre-K) we suggest parent involvement when going through the simulator.
6. The Fire Safety House runs on its own generator. We will let you know if you need to provide a 110-volt electrical hookup with 30-amp service.
7. Every child under age 18 must have a signed consent form prior to touring the Fire Safety House for Severe Weather Training or Fire Safety Education.
8. Please allow 15-20 minutes for each group of 8-10 children.
9. The hosting fire department and/or community organization is responsible for any damage to the Fire Safety House incurred during its visit to your location.

By submitting a request for the Fire Safety House, you agree to the above terms and conditions.
