

## Tips to help you find your way

- Keep in mind that our campus is built on a hill. **The 5th floor of Younker/Powell is the same level as the 1st floor of the main hospital.** Look for the crossovers to travel to and from each side of the campus.

- Look for wall directories throughout our campus (next to elevators and at hallway intersections). Major areas of the hospital are listed and **color-coded**. As you get closer to a given area, the directories will become more detailed listing the departments located in that area.
- Most elevators are labeled with overhead signs and are named according to the areas they serve.

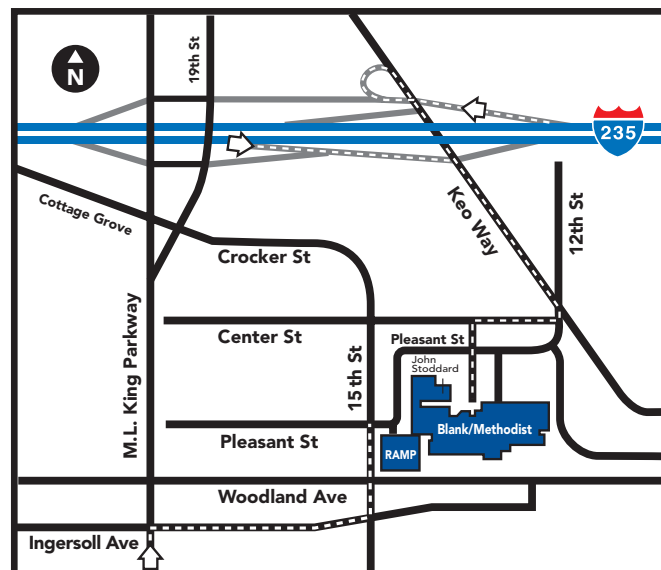

## PATIENT REGISTRATION

Most patients arriving for outpatient tests and labs need to register at Patient Registration on North 1, near the main entrance (entrance #2).

Patients having a surgical procedure, cath lab procedure or cardiovascular or neurological test, must register in the Surgery Center on East A (entrance #7).
